PERSONAL PROFILE

Hello, I'm Michael Bengawan, a Computer Science student with a drive to perfection that always learns to push further and test my knowledge. I am not afraid of new technologies, always evolving and pushing myself to be better than who I was. I am passionate about solving unique problems and trying innovative ways to complete them.

KEY SKILLS

- **Team Work:** Have been working together with amazing people such as lecturers to develop lesson plans, key management personnel to develop a website, as well as multitude of teammates for many projects.
- **Adaptability:** Been around a lot of team environments, always working to improve within each. Succeeding even in two different countries, two different companies, and different ages.
- **Technology literacy:** Used many softwares and hardware with notable examples in Python for AI, React for Websites, as well as Unity for creating games.

WORK EXPERIENCE

Technology Mentor

Digimaker | Jan, 2026 – Jul, 2026 — Melbourne, Australia

Taught kids which required a lot of patience and adapting to different learning systems among four different schools. As well as learning multiple different languages such as Python, C, Java, Lua, and Ruby.

Web Developer Intern

PT Rohto Laboratories Indonesia| Feb, 2025 – Jul, 2025 — Jakarta, Indonesia

Developed a website with a team of three for the company, while having to communicate directly with different levels of management. Mostly working at UI/UX elements while quickly learning PHP.

Student Mentor

Bina Nusantara Indonesia| Feb, 2024 – Jun, 2024 — Jakarta, Indonesia

One and one sections with students developing their skills in mathematics and Java programming. Time management between me and the student was a major issue that we had to tackle together.

Teacher Assistant

Bina Nusantara Indonesia| Sep, 2023 – Oct, 2023 — Jakarta, Indonesia

Worked with teaching staff to mentor university level students with Python, C, and standard computer science concepts.

EDUCATION & QUALIFICATION

RMIT University — 2025 - 2026 | Melbourne, Australia

Bachelor of Information Technology — **GPA: 3.3 / 4.0**

Bina Nusantara University — 2023 - 2025 | Jakarta, Indonesia

Bachelor of Computer Science — **GPA : 3.8/4.0**
